Good to know

On the old device: Settings → **Back up now**. On the new one: open Mediterranean Meal Planner → Settings → **Restore backup** and pick that file.

Printing

Week Plan → **Print** gives a landscape week for the fridge. Shopping → **Print** gives a tick-off list. Any recipe → **Print** gives a recipe card.

Make it yours

Settings has dark mode, 3 accent colours, week start day, water goal, and an option to hide calories entirely.

Troubleshooting

"My planner is empty!"
You may have opened it in a different browser, or moved the file to a new folder. Open it the way you did before, or restore your latest backup.

A yellow "can't save" warning appears.
You're in a preview window (Files app, email, zip) or private browsing. Open the file in Safari/Chrome/Edge/Firefox, or use your online link.

"Storage full."
Remove a few recipe photos, then back up. Photos are shrunk automatically, so this is rare.

Check everything works:
Settings → Help → **Run check**.

Works with

Designed for current Chrome, Edge, Firefox and Safari on Mac, Windows, ChromeOS, iPhone, iPad and Android. Keyboard shortcuts: **/** search · **N** quick add · **Esc** close.
